

Team Workshop:

Bring your team to the next level!

1-day format

DESCRIPTION

A team is much more than the sum of its individuals!
When a team evolves (welcoming new members, a new leader or being confronted to new challenges...), it is the right moment to reflect on its vision, strengths and goals. In this workshop, you will dive under the iceberg to better understand group dynamics, work together in order to shape your team's identity for a better atmosphere and better performance.

LEARNING TARGETS

- Understand the principles of team dynamics and analyse your current situation
- Explore talents, strengths, sensitivities and differences within the team
- Define your team ground rules
- Shape the future by committing to guiding principles and individual goals

METHODOLOGY

- The learning approach is personal and interactive!
- The workshop alternates theory, group discussions, practical exercises, work in pairs and self-reflection.
